FOR IMMEDIATE RELEASE

Nichirei Corporation

## Awarded Excellence at the NIKKEI Integrated Report Award 2025

Nichirei Corporation is pleased to announce that it has been awarded the Excellence at the NIKKEI Integrated Report Award 2025, hosted by Nikkei Inc.

The Nikkei Integrated Report Awards are held annually by Nikkei Inc. to promote the enhancement and dissemination of integrated reports issued by Japanese companies (\*).

Since 2018, we have been publishing an integrated report as an important communication tool with our stakeholders, primarily investors. This report aims to systematically present the strengths and growth potential of the Nichirei Group by integrating both financial and non-financial information. This award particularly recognized that the logical presentation of our unique value creation story centered around the long-term management goal "N-FIT 2035," as well as the visualization of the process by which non-financial initiatives are converted into economic value.

We will continue to strive for further improvement of our integrated report, providing valuable financial and non-financial information, and enhancing corporate value through dialogue with our stakeholders.

\*Note: The awards were held as the "Nikkei Annual Report Awards" from 1998 to 2020 and were renamed in 2021.
