FOR IMMEDIATE RELEASE

Nichirei Corporation

First Time Selected as CDP Supplier Engagement Leader 2025

Nichirei Corporation has received the highest rating of “A” for the first time in the Supplier Engagement Assessment 2025 (SEA) conducted by the international non-profit organization CDP*. In recognition of this achievement, Nichirei has also been named as a “Supplier Engagement Leader”.

In the same year, the Company also received the highest rating of “A” in the CDP 2025 Climate Change and “A –” in the CDP 2025 Water Security.

The SEA evaluates how effectively companies collaborate with their suppliers on climate change initiatives across five categories such as Governance and Business Strategy, Targets, Scope 3 Emissions (incl. Verification), Risk Management Processes and Supplier Engagement.

The Nichirei Group is advancing sustainability management to maximize corporate value by balancing social and economic values aligned with its Mission of “Spreading Happiness through Food into the Future”. The Company will continue to collaborate with diverse suppliers across the entire food supply chain—from upstream to downstream—to protect abundant nature and food resources, thereby contributing to the realization of a sustainable society.

* CDP (Carbon Disclosure Project): An international non-profit organization that operates a global disclosure system enabling companies and local governments to manage their environmental impacts. The CDP disclosure system is widely recognized as a global standard for environmental reporting in the world economy.
