FOR IMMEDIATE RELEASE

Nichirei Corporation

Regarding System Failures within the Nichirei Group

Nichirei Corporation announces today that system failures caused by unauthorized access have occurred.

At present, there is no confirmed evidence that personal information or customer data has been leaked externally, though investigations are ongoing. Additionally, the system failures are affecting the following operations:

- Inbound and outbound operations at refrigerated warehouses of Nichirei Logistics Group.
- Frozen food shipment operations of Nichirei Foods Inc.

We are currently investigating and taking measures to restore the systems; we will provide an update regarding the expected time of recovery period.

Please note that the scope of the current system failure is limited to Japan.

We sincerely apologize for any inconvenience caused to our stakeholders.
